## FREQUENCY OF YOUR TONE

To begin with, do not confuse this with musical notes or frequency spectrums. Many doctrines will equate this to the solfeggio harmonics and for all intents and purposes it is the Universal frequencies.

The average human body vibrates at a frequency of 62-68 Hz, which is in the alpha brainwave range. This range is associated with relaxation and stress relief. When our bodies are in this state, we are more likely to experience positive emotions and be open to new ideas.

We are all energy beings living in an energetic universe. Every atom in our bodies and every star in the sky is vibrating at its own unique frequency. And everything is connected.

The 9 frequencies of the universe are:

1. Infra-red – feeling, passion, emotion
2. Visible light – communication, expression
3. Ultra violet – intuition, insight
4. X-rays – transformation, change

5. Gamma rays – highest level of spiritual connection

6. Radio waves – manifestation

7. Microwaves – interconnection

8. TV/cell phone signals – multi-dimensionality

9 Wi-Fi/satellite signals – oneness

These frequencies interact with our own personal energy field or aura to create our reality experiences moment to moment..

Your galactic signature occurs within a particular harmonic frequency that adds to your personality makeup. This is not to be confused with your overall frequency of consciousness. That would equate much higher.

This is the fundamental vibrational waves of your physical characteristic traits of your personality. It makes you who you truly are. It equates to your mathematical tuner or your galactic signature numbers.
